Chapter 1

Metal Casting

1.1 Pattern

-
-

1.2 Terms

-
-

1.3 Types of Pattern

-
-

1.4 Properties of Moulding sand

-
-

1.5 Core design

-
-

1.6 Types of sand

-
-

1.7 Additives used in moulding sand

-
-

1.8 Types of Moulding methods

-
-

1.9 Gating system

-
-

1.10 Top Gate

-
-

1.11 Bottom Gate

-
-

1.12 Parting Line Gate

-
-

1.13 Step Gate

-
-

1.14 Solidification Time

-
-

1.15 Types of Solidification

-
-

1.16 Purpose of Riser

-
-

1.17 Classification of Casting Techniques

-
-

1.18 Permanent moulds

-
-

1.19 Casting Defects

-
-

1.20 Cupola

-
-

1.21 Non-Destructive Testing

-
-

1.22 Visual Inspection

-
-

1.23 Hammer Test

-
-

1.24 Radiography

-
-

1.25 Liquid Penetrant test

-
-

1.26 Ultrasonic Inspection

-
-
